Dear Sir:

On behalf of the Committee on Imagery Requirements and Exploitation (COMIREX), I wish to express my appreciation to Captain Larry Clarke, USN, for his most informative overview briefing at the beginning of our group's visit to CINCLANT on 21-22 May 1985. Captain Clarke gave a stimulating presentation which stressed the importance and complexity of the command and control mechanism necessary for effective fleet operations.

The visit permitted COMIREX to experience first hand the important contributions that imagery products make in supporting the many and varied responsibilities of the CINCLANT command.

Again, please convey our thanks and appreciation to Captain Clarke for his contributions to making our visit so successful.

Sincerely,

Chairman
